Announcement: Shanghai Salon Cross-Continental Zoom Dialogue

February 25, 2026 | 09:00 AM Beijing / Shanghai (UTC+8)

February 24, 2026 | 08:00 PM U.S. Eastern Time (UTC-5)

February 25, 2026 | 01:00 AM GMT (UTC±0)

On February 25, 2026, Dr. Richard Z. Cheng will host a live cross-continental Zoom dialogue from Shanghai, convening leaders in biological dentistry, redox medicine, and orthomolecular systems medicine.

This session will explore foundational biological mechanisms underlying chronic disease, oxidative stress, and systemic dysregulation - from a 21st-century orthomolecular perspective.

The Shanghai salon is held in conjunction with the visit of **Ms. Caroline Volz of Switzerland**, who will be present for in-person dialogue and professional exchange. She will offer a brief introduction to ICBI (International Circle for Biological Implantology) and selected European developments, and share her personal journey in the pursuit of optimal health.

Featured Speakers

👤 **Dr. Ulrich Volz (Switzerland)**

Dr. Volz is a pioneer in **biological dentistry and systemic oral medicine**, and founder of the Swiss Biohealth Clinic.

His work integrates oral rehabilitation with whole-body optimization, anti-aging medicine, and systemic inflammatory modulation. Dr. Volz will discuss:

- The oral-systemic axis in chronic disease
 - Biological dentistry within longevity medicine
 - European developments in regenerative and integrative care
 - Why systemic medicine requires interdisciplinary integration
-

 **Dr. Thomas E. Levy (United States)**

Dr. Levy, cardiologist and long-time advocate of orthomolecular redox medicine, will present his updated lecture:

"The Riordan Clinic Advanced UBI Therapy: Rapid Resolution of Long COVID and Associated Hypercoagulation."

His presentation outlines:

- Increased intracellular oxidation as a unifying disease mechanism
 - Redox biology and vitamin C physiology
 - Persistent spike protein and abnormal clotting
 - D-dimer dynamics in long COVID
 - Ultraviolet Blood Irradiation (UBI) with 254 nm UV-C
 - Clinical resolution of Persistent Spike Protein Syndrome
-

Dialogue Focus

This Shanghai session will connect:

- Swiss biological dentistry
- American orthomolecular redox medicine
- Integrative systems approaches to chronic disease

The goal is not isolated interventions - but systems-level integration.

Zoom Information

Date: February 25, 2026

Time: 09:00 AM (Beijing / Shanghai)

Meeting ID: 856 1450 6007

Passcode: 123686

<https://us06web.zoom.us/j/85614506007?pwd=dprmM5wV6xV2Vb1boWS45a6QrGbAWM.1>

All clinicians, researchers, and interested colleagues are welcome.
